

# BACK OF HOUSE RETAIL SOLUTIONS

**\$33,000.** That's the fine that OSHA levied on a national retail store when inspectors discovered a pile of beverage cartons blocking one of its store's back exits.

Blocked aiseways and exit paths are a serious safety hazard and can rack up hefty fines.

There is no guaranteed way to keep OSHA at bay, but one thing that can help is to place prominent floor markings around exits and breaker boxes (as shown above) to serve as a constant reminder to staff that these designated areas must be kept clear and may not be used to store boxes, cartons or other items.

Blocked exits can happen anywhere. If the retail store had marked its floors better, it might have prevented a \$33,000 fine and OSHA citation.

# EGRESS MARKING KITS

Kits are a great alternative to painting. Facility operations can resume immediately upon completing installation of these kits, which are quick and simple to install.

No need for a measuring tape, these pre-cut strips are measured for you. Door kits are available for 36", 42", 48", or we can completely customize any length in our standard or printed Superior Mark™ tape.

Pre-cut strips are an easy way to quickly mark exits and egress pathways.

Pre-cut pieces feature our patented beveled edge design and quick peel liner.

Maximize adhesion to the floor by using one of our Superior Mark™ tamper carts. *see pg. 8*

Use pre-cut kits to create a visually appealing workplace that communicates safety messages clearly.

SUPERIOR MARK™

# GLOW IN THE DARK

Superior Mark™ Glow is the only beveled edge tape on the market that glows in the dark and is also brightly colored in the light!

All other glow in the dark floor tapes are that familiar greenish off-white color in the light. Our Superior Mark™ Glow tapes can be any regular color in the light and still glow in the dark!

This product, like our Superior Mark™, can also be custom printed and is available in 2" and 4" widths.

# ENCOURAGE OSHA COMPLIANCE

With Superior Mark™ Pre-Cut Floor Kits

Superior Mark™ pre-cut floor kits include pieces of printed floor marking tape to clearly mark various items in your warehouse.

With puzzle-cut corners, you can easily peel and stick the pre-cut pieces of the kit to create an eye-catching message in minutes.

Current Kits Available:

- Eye Wash Stations
- Electrical Panels
- Fire Extinguishers
- First Aid Kits
- AED Oxygen

We also have completely customizable options available.

Border kits are available in both 2" and 4" widths.
