Why should I stop painting?

Painting requires preparing floors with processes such as bead blasting or acid etching. While it is a necessary step for the paint to be able to bite into the surface of the concrete, these processes damage the concrete. Operations must shut down to accommodate the long hours of paint application and drying time. In addition, when painted lines are subjected to heavy traffic such as forklifts, the rate at which the markings deteriorate is disappointingly rapid.

Our e-commerce website, Stop-Painting.com, encourages people to question if painting is the best way to mark floors. OSHA requires pedestrian aisle-ways to be clearly marked, and efficient companies also mark floors for organizational and safety purposes. The question is, which method of floor marking makes good business sense over time?

To answer this question, companies have to spend considerable time digging out costs that are hidden in the various categories of their budgets or between the line item details of a contractor's quote. The truth is, when you ask most companies how much they spend keeping their floor markings maintained, they rarely can give a straight answer.

Using the patented Superior Mark® floor marking system translates into consistently visible lines, most of the time. Paint fades quickly and is difficult, time consuming and costly to maintain or simply "freshen up."

With Superior Mark®, if a section becomes worn or damaged due to heavy traffic, a fresh piece of tape can be spliced and inserted in minutes without major disruptions to facility operations. Superior

Mark® is also easy to remove, making changes in layout simple.

The flexibility of using Superior Mark® tape is appealing to our customers, who often have last minute notice on inspections, audits and important visitors. The appearance of the floor has a profound effect on the appearance of the entire facility.

When the floor appears in good order, this reflects a sense of organization and efficiency with a subconscious impact company-wide on morale. Most importantly, it creates a safer workplace. For these reasons, our customers greatly value our patented floor marking system. Using Superior Mark™ means having a great looking and well-organized floor, every day.

Our MISSION

Our mission is to create a safer, more visible work environment for customers by producing the best, most durable, indoor and outdoor marking tapes on the market. Continuous improvement and innovation in our products and services are paramount in efforts to meet and exceed our customers' expectations. We value our customers' feedback immensely, so please let us know how we are doing!

Our VALUE

Our value is in offering increased safety and organization in industrial, warehouse and commercial facilities with our patented, self-adhesive marking systems. This is achieved through the use of durable, yet easily removable materials. Our products can be installed and replaced quickly without expensive labor costs and shut downs required with alternative systems like painting.

Still Not Convinced? Request a FREE Sample

We offer free samples because we understand that environments, conditions, and even company cultures vary. We want you to be confident that our products will solve your specific problems.

Testing is highly recommended to ensure that the product meets and exceeds customer expectations. Testing also provides valuable feedback on product limitations and maintenance required during the product's life cycle.

We believe so strongly in the quality of our products that we encourage our customers to perform objective performance trials comparing the patented Superior Mark® system against any other marking method.

Call 866-284-1541 or visit
www.Stop-Painting.com

SuperiorMark®

Installs Fast

Simply pull off our QuickPeel Liner and stick to a clean and dry floor. Open to traffic immediately.

Patented Design

Our dual beveled edge design features a recessed adhesive system. Made from durable PVC plastic and measuring 32 mils thick, The quality of Superior Mark® is unmatched.

Easily Removable

To remove Superior Mark®, use a blade to get under the edge and break the adhesive's seal to the floor. Once you have enough tape loose, pull up with both hands at a 90 degree angle. The tape and adhesive remove in one piece, without leaving residue, eliminating the need for laborious scraping and cleaning.

See page 15 of our Floor Marking Guide to learn more about Superior Mark® Repeating Message Marking Tape.

Organized, Flexible Layouts

With the rise in popularity of organizational systems like Lean and 5S, many companies are realizing gains in efficiency from color coding and labeling their workspaces. With Superior

Mark®, you can label away without committing to a permanent layout. Because it is removable, companies have the freedom to practice Continuous Improvement, changing floor layouts to best accommodate their most efficient work flows.

Endless Customization

Superior Mark® can be custom printed with any message, graphics, or even photos! Because it is reverse printed, the ink is protected from surface damage. From hazard stripes to bar codes, clearly communicate the importance of safety and organization with our crisp prints!

Size Available in 2"x100', 4"x100', and 6"x100'

Thickness 32 mils

Adhesive Pressure sensitive recessed adhesive

Edges Beveled for maximum durability against heavy traffic

Surface Smooth, glossy finish that resists dirt and is easily cleaned

Social Distancing Tape & Signs

Durable, Long-Lasting, Easily Installed!

Control Traffic and Keep Your Facility Safe

Your safety and the safety of those around you is of the utmost importance. Because of this, it's required that we all take certain precautions in order for things to operate as close to normal as possible.

For this reason, we have a variety of products designed to help our customers get through these challenging times that we are in.

Not only are our products of the highest quality and durability, they are also designed to help you meet the state laws and regulations that pertain to the COVID-19 pandemic.

Distancing Floor Tape & Carpet Signs

Available in various designs

Circular Floor Signs

Available in various designs

Superior Mark® Foot Prints

Available as Floor Tape or Carpet Signs

Posters

Available in various designs

Social Distancing Floor Tape

Our top-of-the-line Social Distancing Floor Tape is designed to help control crowds and checkout lanes. It is available in three different versions that are all designed to help remind the community to exercise

the '6 Feet Apart' rule in order to stop the spread of COVID-19.

All of our Distancing Tape is made with our patented Superior Mark® material and comes in rolls of 4" x 96'.

One Way Directional Arrows

Much like our Social Distancing Floor Tape, the One Way Directional Arrows are used for crowd control.

Use these arrows to specify which direction traffic should be moving for grocery store aisles, entrances, exits, hallways, and many other instances.

These arrows are designed to help our customers to control the direction of foot traffic in any number of scenarios.

Our arrows are available in green, yellow, or black.

Hanging Signs

Display clear reminders with social distance hanging signs. These signs offer clear instructions for social distancing with easy-to-read statements along with reminders to keep your distance, avoid large gatherings, wash your

hands, and other safety instructions for preventing the spread of COVID-19.

These signs come in various designs and materials and measure 14" x 10" in both horizontal or vertical formats.

Social Distancing Kits

These Social Distancing Kits are a 3-piece set that comes with two of our 13" Superior Mark® Circular Signs and a 2" x 6' strip that indicates the distance that should be between two people in order to social distance. These are ideal for checkout lines, banking lines, restaurant lines and schools.

Covid-19 items are made to order and non returnable

Quick Installation That Won't Halt Progress

Kits are a great alternative to painting. Facility operations can resume immediately upon completing installation of these kits, which are quick and simple to install.

No need for a measuring tape, these pre-cut strips are measured for you. Door kits are available for 36", 42", 48", or we can completely customize any length in our standard or printed Superior Mark® tape.

Pre-cut pieces feature our patented beveled edge design and quick peel liner.

For more information on Egress and Exit regulations, see page 21 of our Floor Marking Guide.

OSHA Code: 1910.37(a)(3)

No materials or equipment may be placed, either permanently or temporarily, within the exit route; the exit access must not go through a room that can be locked, such as a bathroom, to reach an exit or exit discharge, nor may it lead into a dead-end corridor; stairs or a ramp must be provided where the exit route is not substantially level.

Superior Mark®

GLOW IN THE DARK

Superior Mark® Glow is the only beveled edge tape on the market that glows in the dark and is also brightly colored in the light! All other glow-in-the-dark floor tapes are that familiar greenish off-white color in the light.

Our Superior Mark® Glow tapes can be any regular color in the light and still glow in the dark! This product, like our Superior Mark®, can be custom printed and is available in 2" and 4" widths.

For more information on Glow in the Dark Floor Tape, see page 28 of our Floor Marking Guide

OSHA Compliance Kits

Superior Mark® pre-cut floor kits include pieces of printed floor marking tape to clearly mark various items in your warehouse.

With puzzle-cut corners, you can easily peel and stick the pre-cut pieces of the kit to create an eye-catching message in minutes.

Current Kits Available:

- ▶ Eye Wash Stations
- ▶ Electrical Panels
- ▶ Fire Extinguishers
- ▶ First Aid Kits
- ▶ AED Oxygen

We also have completely customizable options available.

Border kits are available in both 2" and 4" widths.

OSHA Code: 1910.303

Requires an area around electrical panels be kept clear for a minimum of 36 inches.

For more information on OSHA Regulations, see pages 57 through 59 of our Floor Marking Guide.

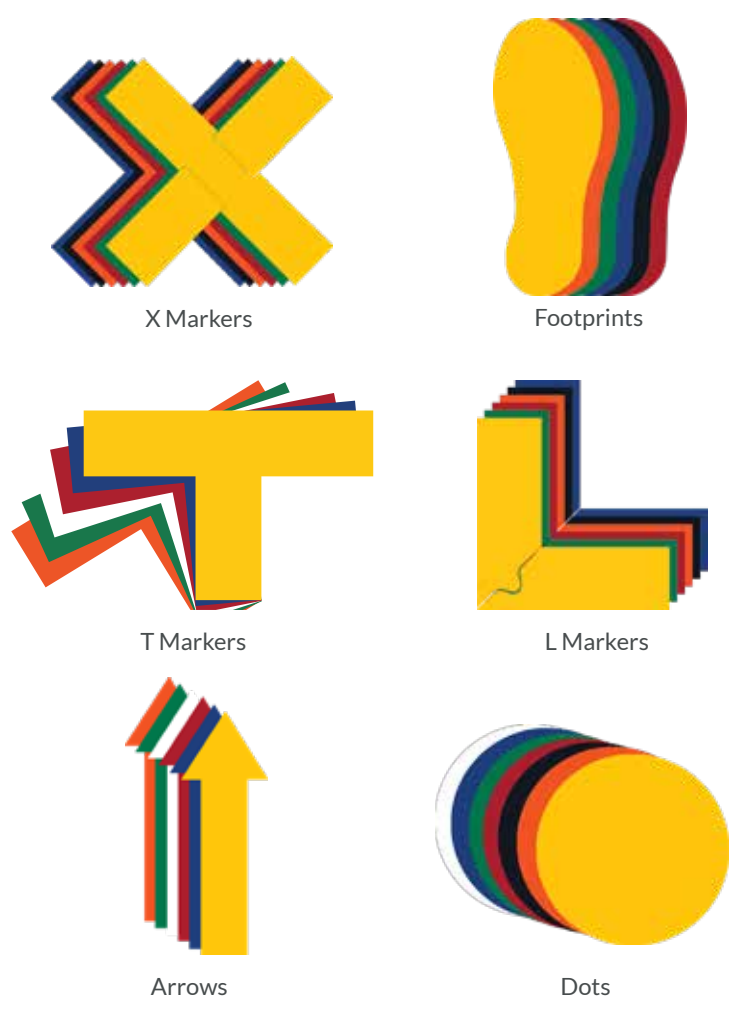

Floor Markers

Superior Mark® Floor Markers are the only floor markers with a patented beveled edge. For areas with heavy traffic, it makes sense to use less material. Compared to solid lines, floor markers are easier to replace.

Did you know?
Corner markers with rounded corners are more susceptible to damage than corner markers with a 90 degree corner.

X Markers

Footprints

T Markers

L Markers

Arrows

Dots

Superior Mark® Arrow Kits

Superior Mark® Arrow Kits are great for marking pedestrian aisle ways and forklift pathways to comply with OSHA Regulations. Kits are available in all colors and custom-printing. The measurements for the arrow kits are 34" width x 36" length on our 4" Superior Mark® tape.

AGV Lane Marking

AGV lanes must be marked, according to the American National Standards Institute (ANSI). The AGV path markings illustrated above are made from Superior Mark® Floor Tape.

Custom Rulers

We can create rulers in a wide variety of materials, colors, and units of measure. Whether you want it to read in a certain direction, or it needs to withstand the elements, Stop-Painting can create the perfect ruler for your application.

Magnetic Signs & Labels

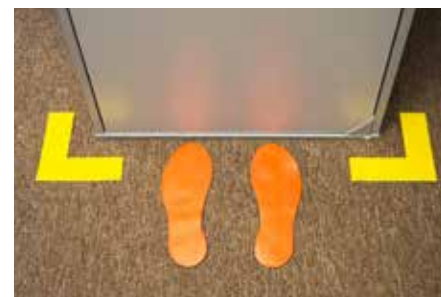

If you're looking for an easy way to advertise your business on a company or personal vehicle, or label shelving without any hassle, then we can help. Our magnetic signs and labels are printed on a durable material, so your message will stay perfectly visible for years to come.

Reusable Carpet Tape & Signs

Carpet tape can be used to direct foot traffic in schools, municipal facilities—any place that has a carpeted floor and needs floor markings. It is useful in directing foot traffic into queues, for example in places like the DMV. Using carpet tape is a way to visually communicate foot traffic patterns, easing the confusion in crowded areas.

- ▶ Available in seven vibrant colors!
- ▶ Easy to reuse and leaves behind no residue!

Back-of-House Retail Solutions

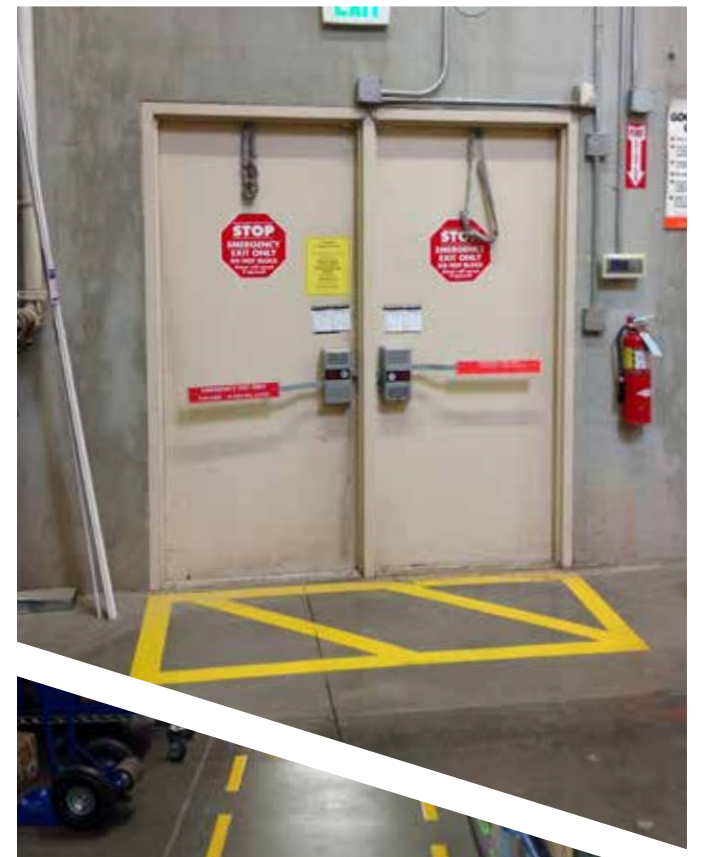

Safety is key. One of the most common OSHA violations is blocking areas that require clearance. Place prominent floor markings around exits and breaker boxes to serve as a constant reminder to staff that these designated areas must be kept clear and may not be used to store boxes, cartons, or other items.

Don't Get Fined!

\$33,000. That's the fine that OSHA levied on a national retail store when inspectors discovered a pile of beverage cartons blocking one of its store's back exits.

Blocked exits can happen anywhere. If the retail store had marked its floors better, it might have prevented a \$33,000 fine and OSHA citation.

Blocked aisle-ways and exit paths are a serious safety hazard and can rack up hefty fines.

Self-Adhesive Floor Signs

Vinyl Signs

- ▶ Anti-skid overlamine
- ▶ Peel-and-stick adhesive
- ▶ Applies to smooth surfaces
- ▶ Completely customizable high resolution printing
- ▶ Removable

Rubber Signs

- ▶ Smooth high gloss top coating that self cleans
- ▶ Proprietary heavy duty rubber material
- ▶ Completely customizable high resolution printing
- ▶ Woven reinforcement increases durability and makes removal easy

Inlaid Mesh Signs

- ▶ Durable proprietary coating with highly visible gloss finish
- ▶ Permanently protected from damage
- ▶ Best option for high traffic areas
- ▶ Completely customizable high resolution printing

Choose from a wide selection of designs

Check online for our full selection of pre-made layouts.

But what about edge damage?

New to our line up, Beveled Guards are the latest in floor sign protection. The patented Beveled Guard prevents edge damage from heavy machinery in heavily trafficked areas. Pair them with floor signs of any size to extend the life of your visual cues.

Don't forget to Seal Your Signage!

InSite Solutions provides a proprietary floor sign compound that allows floor signs to be permanently embedded into concrete floors.

Don't see what you're looking for?

No Fees, No Minimums, Quick Turnaround!

For more on floor signs, custom designs and proper placement; see pages 29 through 34 of our Floor Marking Guide

Paint Remover

Our all-natural paint remover is completely biodegradable and can remove multiple layers of paint in a single application.

It will remove lead-based paints, polyurethanes, acrylics, sealers, and epoxies.

Floor Degreaser

This all-purpose floor degreaser effectively cleans a variety of hard surfaces.

It will remove dirt, oil, grease, and grime from concrete, metal, asphalt, and painted walls.

Adhesive Remover

Our adhesive remover is great for removing old tape residue before applying Superior Mark® to the floor.

Although it's tough on "old" adhesive, it's easy on the environment, as it's made from real soybeans.

Whiteboard Kits

Write names, sales figures, job numbers, and more directly on the board using dry-erase markers. Draw anything you'd like, erase and use it over and over for years, apply magnetic

strips and more. As your needs change, so does your whiteboard.

Choose from plain-white or printed white. Use it as a projection screen too.

Installation Carts

Tamper Cart

This tamper cart is an essential floor marking tool which ensures maximum adhesion to the floor.

Equipped with an 8" rubber roller to help tape conform to uneven surfaces.

Free with the purchase of 100 rolls of Superior Mark®.

*Customer must purchase 100 rolls of tape before receiving credit for free cart. This offer is available to companies located in the 48 states only. Subject to availability. Other restrictions may apply.

Tape and tools not included.

Kaizen Cart

All you need to maintain your floor markings is ready in one place.

Organize your tools and supplies in a central location to facilitate daily maintenance.

Get your Kaizen Cart free, with the purchase of 100 rolls of Superior Mark®.

*Customer must purchase 100 rolls of tape before receiving credit for free cart. This offer is available to companies located in the 48 states only. Subject to availability. Other restrictions may apply.

Applicator Cart

This unique device allows you to mark and go without stopping.

Create dashed lines or solid lines with ease thanks to the push activated cutting blade.

Creates durable floor markings in minutes.

Lease based on availability.

For more on application and maintenance, see pages 35 through 39 of our Floor Marking Guide.

Pavement Marking

With over 75 different types of pavement marking tapes and symbols, there is a variety of solutions available for every possible application.

- ▶ Widths ranging from 4" to 48"
- ▶ Highly retro-reflective for superior visibility in all conditions
- ▶ Perfect for crosswalks, bike lanes, parking lots, and more
- ▶ Easy installation, can be applied by hand
- ▶ Marked pavement can be open to traffic immediately

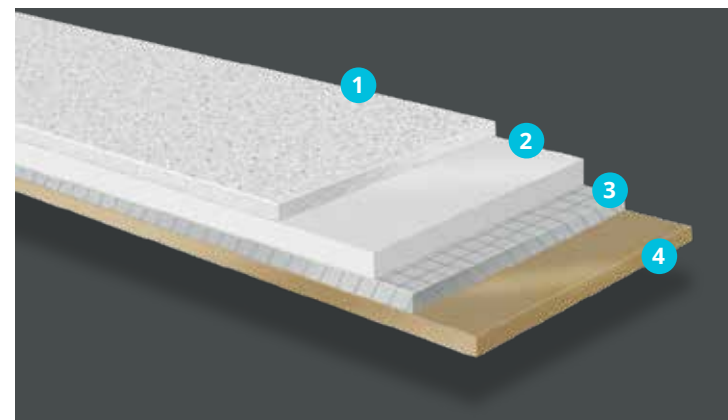

Contrast Tape

Best used to mark lines on highways, interstate systems, and loading dock areas for trucks and service vehicles.

How It Works

- 1 Glass beads & anti-skid aggregate embedded into lead-free paint creates high reflectivity that is very durable.
- 2 Flexible rubber base contains additional rubber beads for long term reflectivity.
- 3 Reinforcement layer increases durability.
- 4 Superior pressure-sensitive adhesive bonds to road surface through all weather conditions.

Rumble Strips

- ▶ Most convenient form of traffic calming used today with a tactile vibration and audible rumbling.
- ▶ Ideal for use in school zones, airport pick-up and drop-off zones, hospitals, and pedestrian areas.

Easy quick peel and stick application

Speed Bumps

Speed bumps are designed to reduce speed to less than 20 mph.

- ▶ **Permanent**
A wide variety is offered on our site that can be used in multiple settings and require minimal installation.
- ▶ **Removable**
Includes all the benefits of permanent speed bumps, but can be rolled up and moved from location to location in seconds.

Delineator Posts

Delineators increase safety by controlling traffic patterns in parking lots, airports, hospitals, and intersections.

We offer flexible delineator posts with a variety of sizes and color options.

- ▶ Lightweight, easy to set up and relocate.
- ▶ Designed for maximum visibility, quick setup, and low maintenance.

For more on parking lot and loading dock markings, see page 41 of our Floor Marking Guide.

Liquid Superior Mark®

- ▶ Hybrid nano lithium traffic marking and safety paint
- ▶ Designed for use as traffic marking paint for concrete or asphalt
- ▶ Can be used both indoors and outdoors
- ▶ Colors available are clear, red, yellow, white, black and blue
- ▶ Available in 1, 5, and 55 gallons

Road Reflectors & Botts' Dots

- ▶ Road reflectors and Botts' Dots are used for traffic control and safety.
- ▶ Reflectors come in a variety of colors and application can be permanent or temporary.
- ▶ We offer a variety of installation options which include butyl pads, bituminous adhesive or epoxy.

Superior Mark® is great for 5S & Lean

Giving everything a designated "home" that is clearly marked will help ensure that items are returned to their proper location.

Always use a removable marking solution to give you the flexibility to change your layout and reorganize in the future.

For more on how to maximize organization in your workplace, please refer to pages 11 through 17 of our Floor Marking Guide.

Go beyond standard colors by using photos and graphics in signage!

Workplace Labels

OSHA's HazCom Standard HAS changed, are you compliant?

Did you know that HAZCOM violations are currently the number 1 OSHA citation written against employers in the US? Our simple and proprietary GHS Secondary Container Labeling System meets OSHA's new workplace labeling requirements and offers a safe and efficient way to label secondary chemicals. Our label helps to eliminate the confusion that can occur when employees migrate chemicals from a primary container to a secondary workplace container.

If you were inspected by OSHA today, would your operation's Hazard Communication program get you fined? Act now and you will receive a written HAZCOM safety program template to easily customize for your organization.

"The enclosed GHS Secondary Label is the subject Copyright Registration VAu 1-184-595, Lowe, all rights reserved. Any authorized copying is an infringement of the Federal Copyright rights. The copyright owner has the right to pursue statutory damages under 17 USC section 504(c) of up to \$150,000 for a willful infringement as well as Attorney's Fees." "Copiers will be prosecuted."

Pavement Stencils

Stop-Painting offers a large variety of high-quality parking lot stencils which are non-porous, flexible, durable, and made with long-lasting reusable materials. Shop from a selection of safety word stencils for parking lots such as "Fire Lane," "No Parking," "Bike Lane" bike stencils, and more. Arrows, custom retail chains, letters, numbers, handicap symbols, custom stencils also available.

Our parking lot stencils come in two reliable grades: 1/16" and 1/8". The 1/16" is the thinner, more economical stencil option while the 1/8" is a more heavy-duty stencil alternative. Both are made from durable polyethylene plastic and suitable for multiple uses.

Solid Reflective Tape

Our reflective polyester/vinyl tape comes in many different colors—with striped variants available—and several styles, such as reflective prism

and reflective powder (glass beads). The acrylic adhesive must be applied in temperatures exceeding 32°F and is rated at a service life of 5-7 years.

Visit Stop-Painting.com or call us at 866-323-8843 for more info on all of our reflective tape options.

Conspicuity Tape

Conspicuity tape material is composed of cube corner retroreflective elements integrally bonded to a flexible, smooth-surfaced, tough and weather resistant UV stabilized polymeric film. The prism surfaces

are coated with a vacuum deposition of aluminum to provide a mirror surface to the prism facets. The resulting tape is not more than 0.008" thick and comes with an aggressive high-tack pressure-sensitive adhesive.

Available in 10-year and 5-year patterns.

Contoured Anti-Slip Tape

We carry a huge assortment of durable anti-slip tape, including yellow and black striped hazard anti-slip tape that will help ensure employee awareness on slippery or uneven floors.

- ▶ Unique ridged pattern to maximize grip
- ▶ Highway grade adhesive system
- ▶ Great for marking stairwells, doorways, and outdoor areas
- ▶ Raised edges to increase traction and prevent slips and falls
- ▶ Available in widths of 4" to 48"

Custom Printed Labels

Product Labels

We offer custom product label printing for all of your merchandise needs.

Tags & Safety Labels

We can print tags for any scenario. Whether you need tags for fire extinguisher inspections or safety warnings.

Original Equipment Manufacturer Labels

Our capabilities also include original manufacturer caution and warning labels for equipment and machinery.

For more information about using custom labels in your workplace, please see page 25 of our Floor Marking Guide.

Label Protection

Superior Mark® Clear

Our label protectors are designed to ensure that your floor location labels last longer by featuring our patented beveled edge. Use Superior Mark® Clear to protect any label.

These label protectors are available in strips of 2"x10", 4"x10", 4"x6" and 100' rolls.

Hanging Signs

We can create custom hanging signs for your workplace, warehouse, etc. in any of the following materials we offer:

- ▶ 3mm or 6mm Metal-Plated Wood
- ▶ ½" Painted or Primed Wood
- ▶ 3mm or 6mm PVC
- ▶ Aluminum
- ▶ Polystyrene
- ▶ Foam Board
- ▶ 4mm & 10mm Corrugated Plastic

Shield your floor labels, shelf labels, and equipment labels so that your warehouse remains organized and user friendly. You can purchase our label protectors already cut into the correct size, or you can purchase a roll of Superior Mark® Clear Tape and cut to size yourself.

Gain the savings that others miss out on.

Call **866-284-1541** today to join our Wholesale Partnership Program and get the best deals on our best products.

How It Works

You Audit

Research your floor maintenance costs over the last 12 months and determine an average annual usage. Share that info with us and we negotiate a percentage discount based on your projected volume.

We Build

We build a custom landing page tailored to your company's specified products. On our page, you will have your own order form and pin number specific to your company with a list of the products you use.

We Both Win

Your purchases are tracked and once your goal is met, you will receive a retroactive rebate check.

This is a true partnership and allows you to buy direct from the manufacturer at wholesale pricing.

For more information about our Wholesale Partnership Program, see pages 46 and 47 of our Floor Marking Guide.
