

Superior Mark™ Floor Marking Kit

Electrical Panel

The Electrical Panel Floor Marking Kit will keep the area in front of electrical panels clear to comply with OSHA Regulation 1910.303. This floor sign is 17.5" in diameter, with black and red text, and lightning bolt images.

Floor Sign Available in:

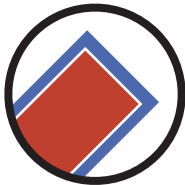

- Vinyl
- Rubber
- Inlaid

Electrical Panel Kit can be ordered with 2" or 4" width Superior Mark floor marking tape, with "DO NOT BLOCK" printed on the sides and "ELECTRICAL PANEL" with icons printed on the middle.

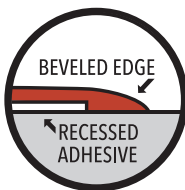

The standard kit comes with two 36" side strips and one 24" center strip of Superior Mark™. Custom dimensions are available upon request.

Puzzle-cut corners for a fully beveled corner joint.

Hangover release liner means installation takes just seconds.

Made with Superior Mark™ **patented** marking tape, which features beveled edges and a recessed adhesive for maximum durability.
