

Product Name: Letter and Number Stencils

Also Called: interlocking stencils, large letter stencils, alphabet stencils

Description: Our letter and number stencils are a standard gothic block font and are made out of durable polyethene plastic. We also offer stencils in brass, aluminum, steel and magnetic materials.

Options Available: Wording (up to 5 or 10 letters), 28 pc letter kits, 12 pc number kits, 63 pc mega kits (letters and numbers) and individual characters are available in 2", 3", 4", 6", 8", 10", 12", 18", 24", 36", 42", 72" and 96". Brass interlocking stencil kits in 1", 2", 3", 4", 5" and 6". There are 2 grades or thicknesses available: Durolast and Maxilast, which are both made of polyethylene plastic. The durolast material is 1/16 inch thick and is a more economical option. The maxilast material is a heavy duty 1/8 inch thick and is second to none in life and service. The standard font is gothic block, but we have over 500 fonts available that can be ordered custom.

Installation Recommendations: : Place stencil in desired location- measure and mark to ensure that the stencil is straight, centered, etc. prior to painting. Aerosol paint is recommended for quick and easy marking.

Relevant products to this item: Stencilocs allow for easy interlocking of the plastic stencils. Stencilocs can be used with any size letter or number stencils and come in several different lengths- 12", 24", 36", 42", 48" and 72". Aerosol paint, traffic marker or field marker paint, is recommended to use with the stencils. A marking gun will also save time in the application process.

Additional Info: Stencils typically ship in 1-2 business days. Custom stencils or standard items that have to be cut require a 1 week lead time.
